Subject: New Assistant News Director Renee Washington

All—

I am pleased to announce the appointment of Renee Washington as our next Assistant News Director. Renee comes to us via our ABC-Owned sister stations in New York and Philadelphia. Renee is currently the Dayside Executive Producer at WABC-TV where she runs breaking news coverage and supervises content and production for New York's number one evening newscasts. Prior to WABC, Renee was Executive Producer for the morning and late newscasts at WPVI-TV. Before joining our company, Renee was an executive producer in Tampa and Cleveland. Renee is a native of Fort Wayne, Indiana. She earned her B.A. from Ball State University and started her career as an associate producer at WXIN-TV in Indianapolis where she rose through the ranks to become 6 pm Producer. Renee has wide ranging experience at various levels and she is passionate, as all of us are, about local news. Renee starts her new assignment on October 26. Please join me in welcoming Renee to ABC7 Eyewitness News.
