Team,

Please join me in congratulating John Wilson on his promotion to Vice President and News Director effective today. John has done a remarkable job leading our newsroom since the summer and has demonstrated both the drive and planning skills needed to bring us to the next level. We are the only station in the Philadelphia market to have gained viewers in both morning and late news virtually every month for more than a year now. That kind of growth takes a team effort and John has been a critical and driving force that has helped make that possible.

John first joined CBS 3 in 2003 and was named Assistant News director in 2009. Twice he has held down the fort with professionalism and skill as Acting News Director. More than anyone, he has earned this promotion and I know that in addition to my confidence in him, he has the support of both the news team and the entire station. I am even more confident about our future with John at the helm of our newsroom.

Brien
