Subject: New Position For Derrall Stalvey

To All: I am delighted to report that Derrall Stalvey will move to a newly created role of Director of Special Projects for Sarkes Tarzian Television (STTV) after he leaves the WRCB News Director position this month. In this new role, Derrall will manage projects for both WRCB (NBC in Chattanooga, Tennessee) and KTVN (CBS in Reno, Nevada). While the details of these projects are still in the earliest planning stages, they may include major stories/programs for both television stations concerning societal issues which impact our communities. The topics and the format are still in the development stages. Some of the projects may air outside of newscasts while others may air inside newscasts. For any stories that may air inside newscasts, Derrall will work closely with both News Directors at WRCB and KTVN who will approve the topics and content. For any programs that air outside regularly-scheduled newscasts, he will work with both Tom Tolar (President of STTV and WRCB) and Lawson Fox (President of KTVN). The position begins immediately after Derrall's responsibilities as WRCB News Director end. Derrall's new office will not be inside WRCB or KTVN on a daily basis; but, there will be times when he does return to the stations for meetings. The new position will also require some possible travel to KTVN in Reno and/or our corporate offices in Bloomington, IN. Congratulations to Derrall.

Best regards,

Tom Tolar
