Subject: Good News for Team 2

Rethink. Restructure. Re-energize.

We have a good team here. A very good team. A team I am extremely proud of.. every day.

We've seen a lot of changes – people moving up, others moving in.

But today --- I'm ready to announce how we plan to move forward in leadership here at WFMY News 2.

As many of you know – I have been looking for an Assistant News Director.

But in the end – I didn't need to look far... the person best suited for the role, is already my right hand on many projects.

Today – I am thrilled to announce Cami Anthony will be stepping into that role. Her leadership, her decisiveness and her dedication to News 2 – makes her the best person for this demanding job.

Please congratulate Cami on her well-deserved promotion.

But we are not done yet!

Executive Producer, Alan Kirkland, will return to his passion – Morning News.

As many of you know --- Alan's career has centered around winning mornings. He did that as Senior Producer in Las Vegas and San Diego... And now, he's ready to lead "The Good Morning" show to continued success.

You ask ... what about the Evening Executive Producer?

The answer: Michael Radostits!

Michael has stepped up as a newsroom leader -- he knows the ins & outs of how we do things – and he is ready to tackle "Content Transformation" and being a leader in this "Digital First" newsroom.

With that said – we have some movement with producers.

Andrew Wagner will be the new 11pm Producer --- and Lynox Norman will produce the 5pm.

I am so excited about all these moves. Obviously, we need to hire a few more producers.. but hope to have everyone in place in the near future.

Go #Team2
