Subject: Kevin Ragan Retirement

Greetings All.

As all of you know, Kevin Ragan has been recovering at home from the stroke he suffered over 11 months ago. He has made extraordinary progress given the severity of the injury he sustained and hopes to continue progressing even further.

Because of his determination to get better and better, Kevin has made the difficult decision to retire from WILX so that he can continue to work full-time on his recovery.

Kevin was News Director at WILX for 20 years. In that time, we went from a distant #2 station to a competitive, and at times, dominant #1 station. The legacy he leaves is one of hard work, excellent journalism and a never-ending competitive spirit. He's been a great mentor to many, a great colleague and a great friend. He will be missed.

Kevin is deciding whether he'd like to have a little retirement get together or not, so I'll let you know what develops.

Mike
